

Having Known Mark and Michele for well over 15 years there was no hesitation in whom I would ask to help me when I purchased my new home in Hillcrest. I had my ideas of what I felt I needed, these ideas being how I could make my existing furniture work in my new home. I wanted a completely new bedroom and en suite bathroom for myself; improvements to the kitchen; curtaining etc. However Mark and Michele had a vision far beyond what I could have even have imagined. With their years of experience they were able to see ways that would improve on how the house functioned and looked. I put my trust in them and was extremely glad I did! The end result was stunning. Michele Project managed the whole renovation and design project with amazing professionalism and efficiency. The after installation service was excellent, everything followed through till every last detail was finalized.
